Apricot (back patio - 2 x trees) Risk reduction prune to help mitigate the risk of branch failure in the tree. To include hazard reduction by pruning to suppress growth on branches where branch joints or unions may be weaker, removal of damaged/diseased/deadwood 3inches in diameter and larger, prune over extended limbs and reduce branch end weight. If clearance pruning is needed this shall include removal of branches to provide a minimum of 2/3ft from building/structures, 6/8ft over sidewalks/driveways, 8ft from roofs and 14ft over roadways. This type of pruning is for larger and more mature trees when structural pruning is no longer an option.	2	\$580.00
Golden Rain Tree (back patio steps) Risk reduction prune to help mitigate the risk of branch failure in the tree. To include hazard reduction by pruning to suppress growth on branches where branch joints or unions may be weaker, removal of damaged/diseased/deadwood 3inches in diameter and larger, prune over extended limbs and reduce branch end weight. If clearance pruning is needed this shall include removal of branches to provide a minimum of 2/3ft from building/structures, 6/8ft over sidewalks/driveways, 8ft from roofs and 14ft over roadways. This type of pruning is for larger and more mature trees when structural pruning is no longer an option.	1	\$450.00
Pine (back patio steps) Clear out any dead, diseased and damaged branches 2inches in diameter and larger, up to 14ft into canopy.	1	\$180.00

Trees/Shurbs	Quantity	Price
Crabapple (side of property - clump of Crab/Cherry and Elm) Removal of dead/dying Crabapple and Cherry tree, cut the stumps as low as possible. Removal of 3/4 Elm limbs up to property fence line to allow for more light and building clearance.	1	\$890.00
Hackberry (FY - large) Clearance and crown clean prune up to 20ft into canopy to maintain health, manage size and promote healthy growth. Lighten and reduce heavy lateral limbs and clear out any dead. Remove diseased, broken and damaged branches 2inches in diameter and larger. Remove any crossing/rubbing limbs and lowest sucker growth. Clearance pruning to include removal of branches to provide a minimum of 2/3ft from building/structures, 6/8ft over sidewalks/driveways, 8ft from roofs and 14ft over roadways.	1	\$890.00
Cherry (next to Hackberry on lower steps) Removal of dead/dying and hazardous tree, cut the stump as low as possible.	1	\$590.00
Stump Grinder (for cherry on separate day) Rental for Stump Grinder and removal labor.	1	\$250.00
Aspen (lower yard near road - clump of Aspen/Oak/Pine and 2 x larger shrubs) Removal of dead/dying Aspens x 2, cut the stumps as low as possible. Tidy up clump of ground Oaks, crown raise 4 x Pines to 6ft to allow for easier access, clean interior of lilac removing larger dead, shape and clearance from Pine on shrub next to drive.	1	\$1,120.00
Honey Locust (lower garden on road in fence line) Boom lift removal of dead/dying and hazardous tree with vines, cut the stump level with top of fence.	1	\$1,150.00

Trees/Shurbs	Quantity	Price
Sequoia (lower drive next to gate) Driveway clearance and clearance from surrounding trees.	1	\$210.00
Hackberry (on drive - large) Clearance and crown clean prune up to 15ft into canopy to maintain health, manage size and promote healthy growth. Lighten and reduce heavy lateral limbs and clear out any dead. Remove diseased, broken and damaged branches 2inches in diameter and larger. Remove any crossing/rubbing limbs and lowest sucker growth. Clearance pruning to include removal of branches to provide a minimum of 2/3ft from building/structures, 6/8ft over sidewalks/driveways, 8ft from roofs and 14ft over roadways. Removal of 4 x smaller Plums on drive.	1	\$650.00
Elm (on drive) Removal of broken limb over drive.	1	\$110.00
Elm (on drive near greenhouse) Removal of bag worm webbing.	1	\$40.00
Mexican Privet (top of drive near veggie garden) Shape with trimmers to allow for light into garden.	1	\$180.00
Elm (top of drive over veggie garden) Removal of lowest limb as discussed to allow for light into garden.	1	\$250.00
Nectarine (on drive) Structural prune to increase long term structural integrity and help to encourage a healthier and more stable tree. Establish a strong, dominate central leader by shortening competing stems and branches to encourage the best trunk. Reduce end weight and use reduction cuts to shorten stems back to lateral branches. Create scaffold spacing along the dominate trunk and prune proper spacing between lateral branches to reduce future competition.	1	\$120.00

Price

This type of pruning is for younger trees - approx: 1-8 years of age.

Apple

(on back steps) Structural prune to increase long term structural integrity and help to encourage a healthier and more stable tree. Establish a strong, dominate central leader by shortening competing stems and branches to encourage the best trunk. Reduce end weight and use reduction cuts to shorten stems back to lateral branches. Create scaffold spacing along the dominate trunk and prune proper spacing between lateral branches to reduce future competition.

1

\$180.00

This type of pruning is for younger trees - approx: 1-8 years of age.

Plum

(next to above apple) Removal of dead/dying and hazardous tree, cut the stump as low as possible.

1

\$120.00

Piñon

(opposite Apple on steps) Reduce height and shape with trimmers.

1

\$110.00

Apple

(on drive, opposite Horsechestnuts) Structural prune to increase long term structural integrity and help to encourage a healthier and more stable tree. Establish a strong, dominate central leader by shortening competing stems and branches to encourage the best trunk. Reduce end weight and use reduction cuts to shorten stems back to lateral branches. Create scaffold spacing along the dominate trunk and prune proper spacing between lateral branches to reduce future competition.

1

\$220.00

This type of pruning is for younger trees - approx: 1-8 years of age.

Plum

(top garden centre - large) Clear out any dead, diseased and damaged branches 2inches in diameter and larger, up to 12ft into canopy. Create separation from Plum with surrounding trees and shrubs.

1

\$870.00

Access to job site must be accessible on the day of work. ie. Cars moved, gates unlocked, garden furniture moved, tree lights/bird feeders taken out of trees and access points cleared.

If you have a dog all mess must be cleared from yard before work can begin.

Thank you.

Payment Schedule:

Ancestral Tree Care has a minimum tree work charge of \$260 (unless the estimate is exclusively for Fertilization or Probiotic Treatment).

Jobs over \$1000 (including GRT) will require a 50% deposit upon confirmation and the signing of a service contract, with the remaining 50% balance due upon job completion.

A 3.5% service charge will be applied if using a credit card.

For check payments, kindly make the check payable to Ancestral Tree Care. A \$35 bank fee will be added for any returned checks.

We thank you and appreciate your business.
